Containers For Recycling

Acceptable

- Non refillable containers embossed with recycling symbol #2
- EPA registered crop protection products labeled for agriculture, forestry, vegetation management, and specialty pest control
- Containers used to hold crop protection adjuvants, crop oils and surfactants
- **Container sizes up to 55-gallon capacity drums when quartered**

NOT Acceptable

- Brittle and breaking containers
- Consumer home & garden pest control product containers
- Containers used for animal health products

Containers Cleanliness

Acceptable

- Clean Container, thread and lip (triple rinsed)
- Stains inside and outside OK as long as clean
- All non-HDPE parts such as caps, metal handles and rubber linings must be removed, as well as plastic sleeves around containers
- **Booklets must be removed**, glued on label paper is OK
- **30-gallon containers or larger must be quartered**

NOT Acceptable

- Dried formulation on or inside the container or threads
- Bottom (inside) caked with dried residue
- Chemical liquid residue in container
- Any metal on containers, handles, metal rings
- Plugs or bungs in lids

Always follow label instructions and wear proper personal protective equipment before handling any crop protection products.
